LUXURY SMART FIRES

# INTRODUCING LUUME

THE FUTURE OF FIRE

# DISCOVER LUUME

## 1,000,000 years

Is how long it takes for volcanic lava rocks to form, which by the way is what we use to fuel our fires.

## Piece de Resistance

A renaissance is here, once more. We are pedantic about sourcing only the finest materials from the furthest corners of the world.

A LUUME Table does not compromise on any feature. Stone table tops, the Jewel of the Crown in every LUUME table, are meticulously sought after by us.

A new renaissance has begun with LUUME.

## A finishing touch

Every note in a symphony matters.

LUUME is embellished with specialist metallic trimmings, which gracefully tie the table together with elegance and luxury.

Choose Rustic gold, Stainless steel or a metallic bronze to contract the deep granite colours & textures

## “Colors, like features, follow the changes of the emotions.”

**Pablo Picasso**

Explore colour the way it was meant to be.

Order your LUUME table with a bespoke Granite top to match your personality & compliment your space.

## No wire, less fuss

Untangle your work flow with wireless mobile phone charging on LUUME tables.

## Sounds too good to be true?

Our experts have been making sounds which are clear, crisp and carry a deep resonance for over 25 years, with one aim, that sound must disappear into architecture and reappear in the hearts of the listener.

The LUUME sound system creates an extraordinary audible experience.

## Speak, touch, Action.

We believe in simplicity and ease of functionality.

Why should one complicate with wires and buttons,

when one can touch and speak.

LUUME tables carry a state-of-the-art home SMART feature which seamlessly connects it to an integrated platform, allowing you to bring your LUUME to life with a single word spoken to an Alexa or Google Assistant or just with a simple touch on your tablet.

Playing your music or changing the mood light, is now just a word or touch away.
